Library Research 1 Worksheet

Mr. Gough, Ponderosa High School

Please research the following information about your chosen research country. This sheet is meant to serve as a guide. Please write your findings in your notebook.

1. The name of your country.
2. Locate 5 significant PRINTED (books) resources about your country. List these resources AND call numbers.
3. Locate 5 significant INTERNET resources about your country. List these resources AND their URL (address).
4. Locate two maps of your country, one political (showing the states/regions/territories) and one physical (showing the geological features). **PRINT OUT** or **COPY** both of these maps for your notebook.
5. Identify 25 **significant** facts about your country. List them. Please include:

What is the population of your research country?

What languages are spoken?

What ethnic groups are living in your research country?

What is the predominant form of government in your research country?

How long has your research country been a member of the UN?

6. What natural resources are available in your country?
7. What are the major industries of your country?
8. How long has your country been identified under its current name? What was it called previously? Why did it change?
9. What are the major religious groups in your research country?
10. What is the major economic system in your research country? What evidence do you have for this?
11. What are the major tourist attractions in your research country?
